How could you choose CZARA over TMDLs? Next thing I know you'll stop returning my calls...

I didn't see the overlap between our meeting, but this will give me a good reason to try and wrap up the call at 9am though there's no way it's going to happen with HQ. I think I'll just try to focus on the first couple of points in the NWEA letter. That's more realistic anyway.

I still haven't succeeded at looking at your email instructions to forward my phone, so I still don't know how to do it! Anyway, I'd love to talk with you on pesticides, but since you talked with Alan and are going to be in Ex. 6 - Personal Privacy we can just talk when you get back and I'll schedule our meeting with Christine sometime after September 11 but before the managers' call.

GL on the permit!

Just tried calling, but got your voicemail. Anyway, I'm struggling to try to get a permit document reviewed before I leave today, so don't have much time to talk L. Were you aware that those two meetings overlapped? I'd be likely to hang up on the TMDL meeting to call into the CZARA meeting. Just sayin ...

I'd planned to set up a manager's meeting with us, Christine, you and Dave and would also be glad to talk with you today. When's a good time to talk? I'm squatting in a windowless team room on 20 during our move, but have my cell on (and obviously checking my emails).

Jenny,

I just got off the phone with Alan. He said that the two of you had agreed that we should have a pesticides briefing with Christine, but that there wasn't a clear plan to do that. Can you take care of it? Jayne hasn't sent out the agenda for the next manager's meeting (9/4), but I imagine you can ask her not to put pesticides on the agenda until we've had a chance to talk to Christine.

FYI: I'm going to be in Oregon next week, mostly Ex. 6 - Personal Privacy but I was planning on calling in for the TMDL call, and for the CZARA manager's meeting on Thursday; it looks like they overlap.

I'm here today if you want to talk.

JB
